

Schaerer Coffee Joy

Placement and connections

This leaflet provides information about space- and connection requirements to ensure safe and successful installation, and operation of your coffee machine.

The installation technician takes care of equipment installation from the wall socket(s) and the water connection point. This excludes drilling of holes in the counter or table-top to guide power cords, hoses or chutes through.

Please consult your local JDE Professional helpdesk for more information and explanation.

Please see the product brochure for more detailed information regarding range of available drinks, specifications, options and accessories.

Placement and connections

**THE BASIS FOR
GREAT COFFEE**

- ❶ The electrical socket should not be located within a distance of 30 cm/12" or below the water connection point.
- ❷ The wall socket and water stop valve should be located in the same room as the equipment and easily accessible.
- ❸ Do not use power extension cords.
- ❹ The equipment is only suitable for indoor use. (temperature: 1 ~ 32 °C, humidity: <80% RH)
- ❺ Please check the ingredient packs for storage requirements and handling.

Schaerer Coffee Joy
